

OUR GUIDE TO FLOORING &
CONSTRUCTION CHEMICALS FOR

MANUFACTURING ENVIRONMENTS

- 1 Concrete Repair Systems
- 2 Vertical Overhead Repair
- 3 Grouts, Bonding Agents & Adhesives
- 4 Industrial Resin Flooring
- 5 Joint Fillers & Sealants
- 6 Decorative Resin Flooring
- 7 High Performance Wall Coatings
- 8 Exterior Deck Membranes
- 9 Penetrating Sealers & Liquid Densifiers

FLOORING & CONSTRUCTION TECHNOLOGIES

AVAILABLE THROUGH FLOWCRETE UK

Chemical Admixtures

Admixtures that are added to concrete during mixing in order to increase the productivity and improve longevity of concrete.

Bonding Agents

Adhesives and bonding agents in low and high modulus versions with varied viscosities to ensure proper bonding.

Concrete Repair

A range of repair products including patch repair, form & pour and resurfacing & smoothing solutions.

Penetrating Sealers & Liquid Densifiers

Liquid products that provide extra concrete surface protection.

Fiber Reinforcement

Concrete reinforcing fibers designed to control plastic shrinkage cracks, replacing steel in concrete.

Cure & Seal

Curing compounds and high performance cure & seal products for a wide range of applications.

Grouts & Joint Fillers

Grouts to provide essential bearing and support for and joint fillers to prevent the break down of joint edges.

Levelling Compounds

A variety of heavy-duty, self-smoothing, fast drying surface underlayment, surface treatments and DPMs.

Industrial Resins

A wide range of industrial flooring solutions to suit the huge variety of service conditions required by the demanding industrial sector.

Decorative Flooring

A wide range of resin flooring solutions to meet the requirements of commercial and industrial environments.

Deck Membranes

A range of coatings that enhance visual appearance while preventing water ingress into any exterior structure.

Demarcation

A variety of coatings which create bright demarcation lines and signage throughout your facility.
