

## CPD SEMINARS FROM FLOWCRETE UK

A selection of seminars designed to provide an overview of the latest resin floor innovations...

**INTRODUCING  
CPD SEMINARS  
FROM FLOWCRETE**

**Kevin Potter**  
Managing Director  
Flowcrete UK Ltd

Flowcrete UK has been dedicated to the pursuit of excellence for over 30 years and is proud to be part of the RIBA CPD Providers Network, offering seminars that tackle a host of resin floor, screed, decking and wall issues faced by the industry alongside a number of legislative considerations.

Flowcrete UK Ltd is a world leader in the manufacture of seamless resin floor and wall coating systems as well as Isocrete floor screeds and underfloor heating designed for use in commercial and industrial market sectors.

Flowcrete UK offers a wide range of services, including a nationwide CPD programme to assist in gaining RIBA recognised CPD time as well as a broader knowledge into the latest resin floor and screed innovations.

**How to book your FREE CPD seminar from Flowcrete UK**

CPD seminars from Flowcrete UK are available nationwide to those working in the field of floor specification.

Flowcrete is happy to cater for seminars involving any number of delegates, however please notify us of large groups (over 20) in advance.

To book a CPD Seminar, please use the form located at the end of this brochure or alternatively contact our CPD Team on [cpd@flowcrete.com](mailto:cpd@flowcrete.com) or by calling **+44 (0) 1270 753 000**

# HOW TO AVOID SCREED FAILURE

This seminar covers the different types of floor screeds available and their recommended applications allowing attendees to...

- ✓ Identify typical reasons behind screed failure
- ✓ Identify the types of floor screeds available and their recommended applications
- ✓ Understand areas of problem avoidance when specifying a sub-floor screed
- ✓ Identify screed repair materials
- ✓ Identify the latest environmental innovations in screed technology

## RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

## UNDERFLOOR HEATING SYSTEMS: THE WAY FORWARD

This seminar provides a detailed history of underfloor heating alongside an overview of the latest innovations allowing attendees to...

- ✓ Identify the types of underfloor heating systems available
- ✓ Understand the benefits of using an underfloor heating system over traditional heating products
- ✓ Understand the environmental benefits of specifying underfloor heating systems
- ✓ Provide a value stream analysis

### RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

# DECORATIVE RESIN FLOORING FOR PUBLIC AREAS

This seminar provides a detailed overview of the specification process for seamless resin flooring allowing attendees to...

- ✓ Identify the types of flooring available
- ✓ Identify the relative market price, lifecycle cost and life expectancy of the different flooring options available
- ✓ Identify the correct specification framework for decorative resin flooring
- ✓ Identify the types of resin floors and application areas
- ✓ Provide a value stream analysis

## RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

Seamless Resin Terrazzo from Flowcrete UK

## SPECIFYING SEAMLESS RESIN TERRAZZO

This seminar provides a background to the traditional history of terrazzo and outlines the different systems available to enable attendees to...

- ✓ Understand the different materials available and their application processes
- ✓ Understand the benefits of using seamless terrazzo over traditional tiles
- ✓ Identify the benefits and lifecycle implications of different materials
- ✓ Identify appropriate cleaning methods to ensure a prolonged life span

### RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

# THE CORRECT SPECIFICATION OF INDUSTRIAL RESIN FLOORING

This seminar addresses the main reasons as to why industrial floors fail within the first two years allowing attendees to...

- ✓ Identify why floors typically fail
- ✓ Understand the true expense and upheaval associated with incorrectly specified flooring
- ✓ Identify the correct specification framework of fit-for-purpose industrial flooring
- ✓ Understand BS 8204-6 categories of floors as well as third party testing
- ✓ Environmental issues associated with industrial flooring, including Chip 3

## RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

## CAR PARK DECKING: PROTECTION, STRENGTH AND AESTHETICS

This seminar outlines the specification framework to be used when selecting a car park decking material allowing attendees to...

- ✓ Understand the different deck coating materials available and their applications
- ✓ Understand the different factors affecting basement, lowest level, intermediate and exposed decks as well as ramps
- ✓ Identify the different test methods used to determine application suitability
- ✓ Identify the benefits and lifecycle implications of different materials

### RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

# RENOVATING COMMUNAL AREAS FOR SOCIAL HOUSING

This seminar provides a detailed history of social housing environments alongside the different solutions available and recommended materials to deliver a good return on investment, lifecycle efficiencies and a positive impact on sustainability.

- ✓ Identify why floors typically fail
- ✓ Understand the different technologies and materials available and the key considerations
- ✓ Identify the correct specification framework for social housing solutions
- ✓ Provide a full service solution recommendation

## RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

## THE COST OF FLOOR FAILURE IN FOOD & BEVERAGE FACILITIES

This seminar explores the true cost associated with the improper, incorrect or unsatisfactory specification of flooring materials within the design of food & beverage production, processing or packaging plants allowing clients to...

- ✓ Address the most common reasons for floor failure
- ✓ Draw on real-life scenarios where a failing floor has resulted in financial and reputation damage
- ✓ Outline key factors to consider in order to minimise these risks and costs
- ✓ Identify flooring solutions that offer long-term durability, wear resistance, hygiene and safety

### RIBA approved seminar

Duration: 45–60 minutes | Availability: Nationwide  
Complimentary buffet or light refreshments

# FLOWCRETE UK'S

## BIM OBJECTS

nbs National BIM Library

Many of Flowcrete UK's most popular systems can be downloaded as BIM objects. Authored by NBS and available in the four main software formats as well as in IFC format, these objects are ideal for outlining a development's floor area during the design stages.

Systems available in the NBS National BIM Library include...

- ✓ High performance screeds
- ✓ Luxurious decorative finishes
- ✓ Innovative underfloor heating
- ✓ Fast curing commercial solutions

Check out Flowcrete's BIM Objects...
